✓ Disciplined & Focused Learning Environment
National Eligibility Test (NET) / Junior Research Fellowship (JRF)

The National Eligibility Test (NET), also known as UGC NET or NTA-UGC-NET, is the test for determining the eligibility for the post of Assistant Professor or Junior Research Fellowship (JRF) or both in Indian universities and government colleges. Assistant Professors in private colleges may or may not be NET qualified but NET qualification is mandatory for universities & government colleges. It has been often termed to be one of the toughest examinations in India after Union Public Service Commission (UPSC), where it’s passing percentage is roughly around 3-6% per each session. The toughness of NET is much higher than other exams like GATE (15% -16%), CLAT, IIT JEE, NDA exam, amongst many others. It is only recently where the changes in the passing percentage have been done. Prior to this, till the year of 2017, it’s passing rate remained only till 3-4% percentage. Post this, the passing percentage has been revised and has been extended. The Assistant Professor in universities & government colleges is governed under 7th pay Commission with entry pay of ₹ 57,700 excluding HRA, DA and other allowances making it one of the highest paying government job with 3% of annual increment.

Until July 2018, the Central Board of Secondary Education (CBSE) conducted the UGC NET exam but from December 2018 onwards, NTA is conducting the UGC National Eligibility Test. As per the press-release by Indian Government, the exam would be conducted twice a year June month and December month, and it will be conducted in an online mode instead of offline mode.
